The "<212> PRT" response is invalid: this coding sequence is a DNA sequence. A coding sequence is never a PRT sequence. Please use lower-case letters for nucleotides. Please insert the cumulative nucleotide total of "39" in the <211> response (delete the "13") and insert "39" at the right margin on the nucleotide line; although there are 13 codons, the actual nucleotide total is 39. Do not use TAB codes between amino acid numbers. Please consult Sequence Rules for valid format.

Application No: 10626585 Version No: 2.0

Input Set:

Output Set:

Started: 2007-06-14 15:43:34.064
